Tag: Name Writing in Public Space.
A conference about tagging, in history and today.
Cologne,
2 & 3 September 2019.

The Tag Conference is an international meeting where both academics and non-academics talk about contemporary tagging and its historical antecedents. After successful instalments in Berlin (2017) and Amsterdam (2018), Tag takes place in 2019 as part of the program of
CityLeaks Urban Art Festival Cologne.

All lectures are free and open to the public.

The call for papers for the Tag Conference 2019 has received applications from fourteen countries in Europe, North and South America. A total of twelve papers have been selected to present together with our six guest speakers. See the complete list of speakers below.

Research approaches include calligraphy, art history, dance, archaeology, spoken word, anthropology, sociology, urban studies, photography, cinematography, internet studies, philosophy and graffiti studies.

On the weekend immediately preceding the conference, and also in Cologne, the same team behind Tag welcomes you to the Unlock Book Fair, the annual meeting of the international graffiti and street art publishing scene.
